FROM Kerry Herndon *K.*
Chief, PREP/SPFD *X*

TO Gale Wright
Chief, REMD/SPFD

THRU Robert L Morby *RLM*
Chief, SPFD/WSTM

This memorandum is to officially transfer lead to REMD for the Jasper County Site also known as Oronogo Duenweg Mining Site and Tri State Mining area

NPL Status

The site will be proposed on NPL Update 7 later this month

PRP Search

A preliminary PRP search has been completed under TES This includes a data base of mining companies in the Jasper area during the period of interest Further work is needed to narrow this rather extensive list Section 104 Notice Letters and information request letters will need to be prepared once the final PRP decisions are made Counsel has not yet been assigned to this site

Investigative Status

A Preliminary Assessment was completed March 3, 1986 by E&E and a Site Investigation was completed April 4, 1986 by E&E A removal assessment is in progress due to cadmium contamination in private water supply wells The contact for this assessment is Paul Doherty

The HRS package was completed October 21, 1986 by Jacobs The final score was 46 33 based primarily on a release of zinc to groundwater
